

Model MH

Model MTH

MH and MTH series lifts are a range of small service lifts designed for the vertical transport of small and medium loads and to facilitate multiple applications within the industrial and services sectors.

The rigid quality controls make these service lifts lasting and reliable products. These service lifts are in accordance with Machine Directive 2006/42/CE. They are supplied with CE mark.

The main advantage of this type of product is its **adaptability to your specific requirements**. This adaptability is achieved by offering a **wide range of sizes** and two different installation versions: wall-mounted or using a self-supporting structure. Moreover, both hydraulic drive (low noise level) and electrical traction drive (for travel distances greater than 8 m) are available.

In addition to the above, these service lift include manufacturing features designed to optimise installation times, such as: manufacture of modular elements, prefabricated electrical installation, ready to plug in, as well as pre-assembly of several elements.

SERVICE LIFTS

MH-MTH

A SERIES OF SMALL SERVICE LIFTS

APPLICATIONS

- Dumbwaiters for restaurants, bars, coffee shops...
- Service lifts for shoe stores.
- Small packages.
- Service lifts for libraries or bookshops.
- Service lifts for hospitals, clinics, chemists...
- Service lifts for offices.

LIFT CAR

With up to 3 possible accesses on one stop level.

A supporting tray is included as standard (other numbers of trays available as an option).

Car doors available as an option.

DOORS

Vertical bi-parting door with lock and electrical security contact.

Automatically-operated doors available (which consist of door opening and closing using a foot pedal), as well as fire-resistance doors in compliance with the EN 81-58 Standard.

Hatch available for machine inspection.

BUTTON PANELS

Call and send push-buttons for all level with light indicator for busy car and acoustic signal on arrival of the car.

All these components operate at low 24 V as a safety measure.

TECHNICAL FEATURES MH

Load	50 kg to 100 kg	
Speed	0.35 m/s	
Travel	Hydraulic	Up to 8 meters
	Electric	Up to 35 meters
Stops	Up to 12 stops	
Finish	Stainless steel / Painted steel	

SERVICE LIFT WITH MEDIUM LOAD CAPACITY

Suitable for transport of small trolleys or loading by handcart. For these service lifts the serving height is levelled with the landing level.

APPLICATIONS

- Service lifts for hotel laundry and restaurant services.
- Warehouse service lifts for packages.
- Service lifts for vertical, merchandise-only transport in industrial buildings.

LIFT CAR

Other options include removable intermediate trays, drop bar with retainer to prevent displacement of wheeled loads and bellows type door grille.

DOORS

Swinging hinged doors that are fire resistant in compliance with the EN 81-58 Standard, with lock and electrical security contact.

Vertical bi-parting door available, as an option.

Hatch available for machine inspection.

BUTTON PANELS

Call and send push-buttons for all level with light indicator for busy car and acoustic signal on arrival of the car.

All these components operate at low 24 V as a safety measure.

TECHNICAL FEATURES MTH

Load	MTH 300	200 and 300 Kg
	MTH 500*	400 and 500 Kg
Speed	Hydraulic	0.2 or 0.3 m/s
	Electric	0.3 m/s
Travel	Hydraulic	Up to 12 meters
	Electric	Up to 35 meters
Stops	Up to 12 stops	
Finish	Stainless steel / Painted steel	

*Only available in hydraulic traction
